Fetal Bovine Serum (FBS), US Origin, Qualified for Mesenchymal Stem Cells

Catalog: OM296326

500 mL 500mL

Product profile

Product name	Fetal Bovine Serum (FBS), US Origin, Qualified for Mesenchymal Stem Cells
Product description	Product Description Each lot of MSC-qualified FBS, US Origin (04-400-1A-US) is screened by growing human mesenchymal stem cells (hMSCs) over a minimum of three subculture generations with 10 percent serum. Human MSC's are evaluated on cell count, expansion and morphology. MSC's are phenotypically assayed by flow cytometry. FBS is tested in parallel with a control lot which has been demonstrated to support the growth of hMSC. - US origin FBS- Triple 0.1 µm Filtered- Endotoxin: ≤ 10 EU/mL; Hemoglobin ≤ 25 mg/dL

Key Feature

Isotype	Cocktail
Host Species	Alligator
Purification	Affinity purified

Additional Information

Storage Instructions	-20°C
Note	The product is for research use only, not for use in diagnostic or therapeutic procedures.
